PLINTH
LATEST DOOR & FURNITURE HARDWARE

PLINTH

Inspired by brutalist architecture, Turnstyle Designs introduces their latest range the Plinth.

The Plinth range was designed to evoke strong monolithic shapes. Drawing inspiration from powerful, blocky architecture such as the work of architect Denys Lasdun and The Beinecke Rare Book Library at Yale University.

Design

The strong, clean base The Plinth provides is the perfect frame for two new original Amalfine™ textures.

- Mosaic - designed to give the feeling of ancient, tiled floors as a contrast to the modern, hard lined silhouette of the Plinth. Each master is handmade, embracing the imperfections as part of the design. This texture is also available in Turnstyle's unique Sand finish.
- Diamond - a bold contrasting texture that draws inspiration from modern architecture like the work of Coll-Barreu.

The Plinth is a new full range for Turnstyle, complete with door levers, pulls and cabinet handles. Available in solid and hand-hammered brass and two new Amalfine™ textures. With 240 potential finish combinations across all 5 products, The Plinth is the perfect opportunity to make a statement.

Delivering luxury door hardware for high-end residential, commercial and yacht projects for 30 years, Turnstyle Designs was founded by Steve Roberts in 1992. Steve and his wife Christina work collaboratively to design some of the world's most innovative decorative hardware, using a broad palette of materials and finishes including, brass, leather and Amalfine™. A truly family run business, Turnstyle is now managed by their eldest son Oscar.

From hand stitched leather to individually hammered door hardware, attention to detail is found in every product made. Turnstyle is proudly British made and manufactured in the beautiful Devon countryside. With multiple product combinations and flexibility to allow customisation, there is something for everyone.
