## Undercover agent

Fresh starts can begin with something as simple as fresh sheets. This year, invest in quality materials that will last you a lifetime, such as Italy's Once Milano. The brand's popular quilts are made by hand from 100% Italian linen and come in a wide range of colours. Some styles are reversible, with warm jewel tones on one side and a pleasing neutral on the other.

## Wild child

This folksy jungle wallpaper is by artist Hugh Dunford Wood. It was inspired by the work of post-impressionist painter Henri Rousseau, who created vibrant junglescapes despite never leaving his native France. Hugh, in contrast, has lived all over the world, including a stint in Brazil which helped inform this print. Peeking out from the stylised tropical leaves are birds, big cats, snakes and even human hands. Each motif is depicted with a clear sense of humour. In short, it's fun.
